October 1960. A request for a retention print of this film for [] has just been received.

2. One of the most outstanding documentaries obtained in recent years by the Film Branch has been "Operation Abolition". It is a film record of the witting and unwitting activities and techniques of Communist front organizations and individuals during attempts to discredit and cause abolition of the House Un-American Activities Committee when that unit met recently in California. Requests for screenings of this film increased avidly with each showing to the point where it was being hand-carried daily from one place to the next. Two additional prints were ordered, one of which arrived and immediately began receiving bookings as heavy as the first. Since it was accessioned on 20 July 1960 the film has been booked 17 times to date, a number of them double screenings by the following offices: CI/Staff, DD/S, IO/4, ORR (5 times), OTR (4 times), SO and State (twice).
3. The Film Branch acquired a Revere automatic remote-control, magazine-fed slide projector in order to support requests calling for projection of single-frame color transparencies. The projector has been employed 35 times during the quarter.
4. Two Webcor tape recorders were obtained in July for requester support. The two have been used a total of 40 times since acquisition.
5. In response to a priority requirement of the Geographic Division, ORR, the division processed and furnished 6,504 photographs of China (terrain, ethnic, etc.).
6. [] was furnished 293 photographs selected from CR files on Soviet (Siberia) cities for use in an urban analysis study.
7. Photography of the new Soviet aircraft, the TU-124, was processed and furnished to ORR, OCI, ATIC, USAF, etc., on a priority basis.
8. The Junior Officer Training Program, OTR, was furnished 20 copies each of 19 Soviet missile activity photos on a priority basis for use in the fall programming of OTR.
9. Through the joint facilities of the Army Map Service and the Division, the Geography and Political Science Departments at the U.S. Military Academy, West Point, were furnished 8 copies each (color)

of 106 color transparencies for use in the fall classes at the Academy.

10. The Office of Training was furnished 21 copies each of selected aerial photographs on the Sudan Region for use in the Intelligence Techniques Course. A total of 2,063 Air Force and Navy photographs were forwarded.

11. Photography of the Soviet space vehicle, Sputnik V, was processed and furnished to PIC, OSI, OOI and the Aerospace Technical Intelligence Center on a "crash" basis.

12. [redacted] Two members were personally debriefed in Graphics Register. Thus far, 347 of these photos have been processed into the Master File and they constitute some of the best coverage ever received on Soviet railroad facilities. Special copies of many of the shots have been furnished to ORR.

13. [redacted] The photo was later used to illustrate an article in the Current Weekly Intelligence Summary.

14. On a high priority, special support was furnished to the ORR/Service Division by the USSR Desk. Fifteen copies of three stereo pairs and one mosaic were processed and assembled for a study on possible underground civil defense installations in Moscow.

1. On a limited basis the USSR Desk has resumed exploitation of selected "open source" publications. Present Russian language capabilities, coupled with a new camera which can copy photographs of all sizes and shapes without the tedious task of attaching and removing captions, has made the procedure more efficient. A booklet on construction and reconstruction of towns for example, produced 218 excellent quality photographs on towns for which little or no previous photography existed. Offices such as ACIC, NPIC and SAC have expressed a keen interest in obtaining copies from such publications.
